Independent Auditors' Report

The Board of Trustees
Nebraska Public Agency Investment Trust:

Report on the Financial Statements

We have audited the accompanying statements of net position of the Nebraska Public Agency Investment Trust (the Trust) as of June 30, 2017 and 2016, and the related statements of changes in net position for the years then ended, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements.

Managements' Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nebraska Public Agency Investment Trust as of June 30, 2017 and 2016, and the changes in financial position for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 3 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Trust's basic financial statements. The Financial Highlights for a Unit of the Trust are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Financial Highlights for a Unit of the Trust are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Financial Highlights for a Unit of the Trust are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 18, 2017 on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Management's Discussion and Analysis

June 30, 2017 and 2016

(Unaudited)

This section of the financial statements presents management's discussion and analysis of the financial position and results of operations for the fiscal years ended June 30, 2017 (FY 2017) and June 30, 2016 (FY 2016) for the Nebraska Public Agency Investment Trust (NPAIT) portfolio and the NPAIT Fixed Term Account. This information is being presented to provide additional information regarding the activities of NPAIT. This discussion and analysis should be read in conjunction with the independent auditors' report by KPMG LLP for FY 2017 and FY 2016, the financial statements, and the accompanying notes.

NPAIT is primarily responsible for providing proactive cash management practices and responsiveness to the unique needs of public bodies throughout the state of Nebraska. NPAIT was established in June 1996 through the Interlocal Cooperation Act, and commenced operations on July 25, 1996. NPAIT currently operates one portfolio and a fixed term account. The objective of NPAIT is to provide its owner members with a conservative and effective investment alternative tailored to the needs of its members. NPAIT portfolio management generally follows established investment criteria developed by the Securities and Exchange Commission (SEC) for money market funds designed to offer acceptable yield while maintaining liquidity. NPAIT is not registered with the SEC as an investment company and is not rated by any money market rating services.

Overview of the Financial Statements

The management's discussion and analysis provides an introduction and overview of the financial statements of the NPAIT Daily portfolio and the NPAIT Fixed Term Account. NPAIT comprise the following components: NPAIT Daily portfolio and NPAIT Fixed Term Account. The statements of net position display the financial position (assets and liabilities) of NPAIT as of June 30, 2017 and 2016. The statements of changes in net position display the results of operations (revenues and expenses) and participant/unit holder activity (contributions and withdrawals) for each of the two most recent fiscal years. The notes to financial statements describe significant accounting policies of the portfolios.

Condensed Financial Information and Financial Analysis

Year-to-year changes in most financial statement amounts reported in the NPAIT Daily portfolio are caused by a single variable – the level of average net position (which fluctuates based on the overall levels of participant/unitholder invested balances) in the portfolio. Additionally, changes in the short-term interest rate environment (which follows the general trend established by monetary policy set by the Federal Reserve) also contribute to year-over-year changes in the amount of investment income earned. Throughout FY 2017 and FY 2016, the benchmark, Fed Funds rate remained at 25 basis points (0.25%) as the Federal Reserve targeted a rate of 0.25% to 0.50%. The three-month Treasury Bill traded in a range of 0.254% to 1.027% and 0.000% to 0.356% during the FY 2017 and FY 2016, respectively. Condensed financial information and explanations for changes in the NPAIT Daily portfolio and the NPAIT Fixed Term Account for FY 2017 and FY 2016 are as follows:

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Management's Discussion and Analysis

June 30, 2017 and 2016

(Unaudited)

Net position at June 30, 2017 decreased 7.75% to \$220 million from net position at June 30, 2016 of \$239 million for the NPAIT Daily portfolio. Short-term investment income increased in the NPAIT Daily portfolio during FY 2017 by \$833,834 or 108.67% compared to an increase in FY 2016 of \$396,012 or 106.66%. While the extremely low rate environment continued during FY 2017, rates did increase marginally over the course of the year leading to an increase in total return from 0.05% in FY 2016 to 0.27% in FY 2017. NPAIT's service providers continued to voluntarily waive a significant portion of their fees, which they began doing in January 2010 as short-term rates approached zero. However, as of February 7, 2017, the service providers began taking full fees as short-term interest rates increased. In May 2010, the sponsoring organizations also began voluntarily reducing their fees on a temporary basis and continued to do so in FY 2017. The NPAIT Fixed Term Account assets experienced a 20% decrease in assets year over year due to competitive rates in the local CD market.

Net position at June 30, 2016 increased 3.44% to \$239 million from net position at June 30, 2015 of \$231 million for the NPAIT Daily portfolio. Short-term investment income increased in the NPAIT Daily portfolio during FY 2016 by \$396,012 or 106.66% compared to an increase in FY 2015 of \$91,790 or 32.84%. While the extremely low rate environment continued during FY 2016, NPAIT's service providers continued to voluntarily waive a significant portion of their fees, which they began doing in January 2010 as short-term rates approached zero. In May 2010, the sponsoring organizations also began voluntarily reducing their fees on a temporary basis and continued to do so in FY 2016. The NPAIT Fixed Term Account assets experienced a 23% decrease in assets year over year.

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Notes to Financial Statements

June 30, 2017 and 2016

(1) Nature of Operations and Summary of Significant Accounting Policies

(a) *Nature of Operations*

The Nebraska Public Agency Investment Trust (NPAIT or the Trust) was established in June 1996 through the Interlocal Cooperation Act, and commenced operations on July 25, 1996. NPAIT was established to assist public bodies throughout the state of Nebraska with the investment of their available cash reserves. Participation in the investment trust is voluntary for its members. The objective of NPAIT is to provide its owner members with a conservative and effective investment alternative tailored to the needs of its members. NPAIT currently consists of and operates one daily portfolio and a fixed term account. NPAIT portfolio management generally follows established investment criteria developed by the United States Securities and Exchange Commission (SEC) for money market funds designed to offer acceptable yield while maintaining liquidity. NPAIT is not registered with the SEC as an investment company.

(b) *Measurement Focus*

The accompanying financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Earnings on investments are recognized as investment income in the period in which they are earned and administrative costs are recognized as expense when incurred, regardless of the timing of related cash flows.

NPAIT prepares its financial statements as a fiduciary investment trust fund and a special-purpose government entity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB).

(c) *Investments in Securities*

NPAIT's short-term investment portfolio consists of cash and short-term investments valued at amortized cost, which approximates fair value due to the short-term nature of the instruments. This involves valuing a portfolio security at its original cost on the date of purchase and thereafter amortizing any premium or discount on the straight-line basis to maturity. The amount of premium or discount amortized to income under the straight-line method does not differ materially from the amount that would be amortized to income under the interest method. Procedures are followed to maintain a constant net position value of \$1.00 per unit in NPAIT.

Security transactions are recorded on a settlement basis. Interest income, including the accretion of discount and amortization of premium, is recorded on the accrual basis.

In connection with transactions in repurchase agreements, it is NPAIT's policy that an authorized custodian take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest at all times. If the seller defaults and the value of the collateral declines, realization of the collateral by NPAIT may be delayed or limited. At June 30, 2017 and 2016, the portfolio contained repurchase agreements of \$44,933,628 and \$39,650,801, respectively.

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Notes to Financial Statements

June 30, 2017 and 2016

Certificate of deposit amounts up to \$250,000 are insured by the Federal Depository Insurance Company (FDIC). As of June 30, 2017 and 2016, there were no public funds invested in certificates of deposit not covered by FDIC insurance.

Currently, Demand Deposit Accounts (DDAs) are funded with public funds that earn a rate of return less than 1.19% and are insured by the FDIC. At June 30, 2017 and 2016, the portfolio had \$57,788,397 and \$85,039,441 invested in DDAs, respectively.

Management attempts to limit NPAIT's exposure to interest rate risk and believes this is addressed by Section 2.2 (Permitted Investments) in the NPAIT Declaration of Trust. Hence, it is not expected that any significant increase in market interest rates would present long-term risk to NPAIT.

(d) Fixed-Term Investments

NPAIT has fixed-term agreements with various participants. These fixed-term investments occur when NPAIT enters into an agreement with the customer to pay a specified interest rate for a determined period of time and NPAIT enters into a simultaneous repurchase agreement that matches the terms of the customer agreement.

(e) Net Position Classification

Net position is required to be classified into three components: net investment in capital assets, restricted, and unrestricted. All net position of NPAIT is considered to be unrestricted at June 30, 2017 and 2016.

(f) Operating Revenue and Expenses

As a special-purpose government entity, NPAIT distinguishes operating revenue and expenses from nonoperating. Operating revenue and expenses generally result from providing services in connection with the principal ongoing operations. The principal operating revenue of NPAIT is investment income. Operating expenses include interest, investment fees, administrative charges, and other charges.

(g) Unit Issues, Redemptions, and Distributions

NPAIT determines the net position value of each portfolio daily. Units are issued and redeemed daily at the daily net position value. Dividends from net investment income for each portfolio are declared daily and distributed in the form of reinvestments monthly. These transactions are reflected as nonoperating capital transactions within the accompanying statements of changes in net position.

(h) Withdrawals

Withdrawals from the fund are subject to terms outlined in section 6.5 through 6.8 in the Interlocal Agreement and also to the Investments by Bank Transfer section of the Information Statement.

(i) Income Taxes

NPAIT is exempt from federal and state income taxes since the Trust is a grantor trust. Therefore, each participating public agency will be treated as the owner of NPAIT in proportion to its respective contributions pursuant to Internal Revenue Code Section 677(a).

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Notes to Financial Statements

June 30, 2017 and 2016

(j) Fees and Expenses

Under separate agreements with NPAIT, Miles Capital, Inc., the investment advisor, and Union Bank & Trust Co. (UB&T), the custodian, administrator, and marketing agent are paid annual fees for operating the investment program. Miles Capital, Inc. receives 0.135% of the average daily net position value of NPAIT. UB&T receives 0.025% of the average daily net position value of NPAIT as custodian, 0.155% of the average daily net position of NPAIT as administrator, and 0.125% of the average daily net position value of NPAIT as the marketing agent. During fiscal years 2017 and 2016, the NPAIT service providers waived an average of 12.34% and 40.94%, respectively, of their stated fee schedule due to the low interest rate environment.

Other fees incurred by NPAIT are administrative in nature and mainly comprise accounting, legal, and marketing fees. All fees are computed daily and paid as incurred.

(k) Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(l) Reclassifications

Certain reclassifications have been made to the 2016 financial statements to conform to the 2017 presentation.

(2) Deposits and Investments

(a) Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. NPAIT's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of deposits with federal depository insurance or with U.S. Treasury and U.S. agency securities having an aggregate value at least equal to the amount of the deposits.

The Trust is authorized to invest in legally permissible investments as provided by Nebraska statute, which include securities and obligations issued by the U.S. government, repurchase agreements, collateralized time deposit accounts, and certificates of deposit.

At June 30, 2017 and 2016, all of NPAIT's deposits of \$79,564,715 and \$118,501,201, respectively, were insured, and collateralized by securities held by the pledging financial institution in other than NPAIT's name.

NEBRASKA PUBLIC AGENCY INVESTMENT TRUST

Notes to Financial Statements

June 30, 2017 and 2016

(b) Investments

NPAIT may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agency and instrumentalities and in bank repurchase agreements. It may also invest in guaranteed student loans, loans guaranteed by the Small Business Administration, Federal Home Administration, or any other agency of the United States, as well as any other type of investment permitted for public agencies by state law.

At June 30, 2017 and 2016, all of the Trust's investments in U.S. agencies and repurchase agreements mature in a period of less than two years.

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, all of the Trust's investments have maturities of less than two years.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2017 and 2016, the Trust's investments in government agency securities were rated as follows:

	<u>2017</u>	<u>2016</u>
AA+	\$ 126,472,967	119,298,562

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Trust will not be able to recover the value of its investment or collateral securities that are in the possession of the outside party. The Trust has no specific policy as to credit risk. All of the underlying securities for the Trust's investments in repurchase agreements at June 30, 2017 and 2016 are held by the counterparties in the Trust's name.

Concentration of Credit Risk – The Trust places no limit on the amount that may be invested in any one issuer.

(c) Summary of Carrying Values

The carrying values of deposits and investments shown above are included in the statements of net position at June 30, 2017 and 2016 as follows:

	<u>2017</u>	<u>2016</u>
Carrying value:		
Deposits	\$ 79,564,715	118,501,201
Investments	<u>171,406,595</u>	<u>158,949,363</u>
	<u>\$ 250,971,310</u>	<u>277,450,564</u>

Included in the following statements of net position captions:

	<u>2017</u>	<u>2016</u>
Government agency securities	\$ 126,472,967	119,298,562
Certificates of deposit	21,776,318	33,461,760
Demand deposits accounts/money market accounts	57,788,397	85,039,441
Repurchase agreements	<u>44,933,628</u>	<u>39,650,801</u>
	<u>\$ 250,971,310</u>	<u>277,450,564</u>

(3) Fixed Term Agreements

Repurchase Agreements

NPAIT has fixed agreements with various participants. These fixed-term investments occur when NPAIT enters into an agreement with the customer to pay a specified interest rate for a determined period of time and NPAIT enters into a simultaneous repurchase agreement that matches the terms of the customer agreement. At June 30, 2017 and 2016, the fixed-term investments and obligations mature at various dates through January 2019 and June 2018, respectively, and were interest-bearing at rates ranging from 0.25% to 1.05% and 0.25% to 1.05%, respectively.

Certificate of Deposit Account Registry Services

In 2005, NPAIT began participating in the Certificate of Deposit Account Registry Services (CDARS). The service allows NPAIT to allocate funds into certificates of deposit in increments, which ensure the funds are eligible for FDIC insurance.

At June 30, 2017 and 2016, the certificates of deposit purchased through CDARS mature at various dates through June 2019 and 2017, and were interest-bearing at rates ranging from 0.40% to 1.45%.

(4) Securities Transactions

Purchases of and proceeds from the sale or maturity of portfolio securities for NPAIT, excluding money market accounts, demand deposit accounts, and repurchase agreements, aggregated \$168,516,245 and \$167,191,058, respectively, for the year ended June 30, 2017 and \$153,217,605 and \$89,800,848, respectively, for the year ended June 30, 2016.

(5) Major Participants

At June 30, 2017 and 2016, \$24,596,721 and \$30,064,695 or 77% and 78%, respectively, of total fixed-term investments were individual participants, which held greater than 5% of the total fixed-term investments. At June 30, 2017 and 2016, \$58,099,477 and \$59,427,347 or 26% and 25%, respectively, of total short-term investments were individual participants, which held greater than 5% of the total short-term investments.
